

Changing Your Network Password

If for any reason you feel the need to change your network password, you may do so at any time by completing the following steps:

1. Click and hold down **Ctrl**, **Alt**, and **Delete** to display the **Windows Security** screen.

2. Click on the **Change Password** button.
3. Type in your current password in the **Old Password** box.
4. Type in your new password in the **New Password** box and the **Confirm New Password** box.
5. Click on **OK**. You should receive a box that says "Your password has been changed."
6. Click on **OK**.
7. Click the **Cancel** button when the **Windows Security** screen reappears.
