LITTLE ROCK SCHOOL DISTRICT'S READY FOR LEARNING QUARTERLY UPDATE

EXECUTIVE SUMMARY

The Little Rock School District strives to ensure equitable access to effective, innovative educational programming, resources and supports for all students and staff members; engagement of all stakeholders in the educational environments; and achievement for all students at all grade levels. The Little Rock School District's Ready for Learning Plan was developed with ongoing input from parents, students, teachers, administrators, and district level staff. Our goal is that this Quarterly Report #1 provides an informative outlook on the district's academic and safety measures that the district has established. We will continue to seek your engagement on how we can better serve, support, and perform for all stakeholders.

- The guidelines referenced in this plan are based on guidance from the Arkansas Department of Elementary and Secondary Education (DESE) and Arkansas Department of Health (ADH).
- The district has made regular updates to this plan as new guidance has been received by the ADH and DESE.
- Arkansas Center for Health Improvement has recently provided school district-level [COVID-19 data](#). The data on this website are provided to help inform local decision makers, including policymakers, school personnel and parents, about the impact of COVID-19 in their communities.
- The district strives to always ensure transparency, at all levels; therefore, this report provides a quarterly update of the district's resources, supports, and processes that have been provided. The district is proud of the accomplishments that have been made during this unprecedented time and will continue to assess the areas of need and provide interventions and supports to the identified areas of need.
