

PULASKI HEIGHTS MIDDLE SCHOOL

Dear Parents,

We would like to take this opportunity to share with you our **School Report Card** as part of the *Every Child Succeeds Act of 2015 (ESSA)*. We not only utilize this information to celebrate our strengths, but also to set goals for improvement. Although it is important to share how we are performing in various areas, it is equally important to signify how **Pulaski Heights Middle School** compares to our state's data.

There are four priority indicators of success reported that contribute to the total performance score.

As indicated in the above chart, **57.49%** of **PHMS** students **met or exceeded** the state standardized readiness level of achievement which is higher than the state's average of **54.95%**. While we celebrate this accomplishment, we recognize that there is still growth to achieve. Our goal is for **all students** to achieve the readiness level; we will work continuously toward succeeding this goal. Additionally, we will work diligently toward closing gaps created by pandemic experiences. We recognize that our students are more than numbers; therefore, we strive to address our students' social-emotional health, as well as their overall academic growth. It is our mission at **PHMS** is to educate the complete child by making learning intentional and engaging. We strive to ensure all students attain success.

The school report cards will be released for public review soon. You will be able to view them at www.myschoolinfo.arkansas.gov. We value our parents as important partners in helping our students and school become more successful. We encourage you to contact us if you have any questions, concerns, and/or suggestions for improvement. As always, we truly appreciate your support.
