

Valued PHMS Stakeholders,

We are pleased to announce that the LRSD Safety & Security Division has provided Pulaski Heights Middle School with entryway metal detectors for the continued safety of our Panther Students. These two mobile units are strategically placed in school areas that students transition through each day. Metal detectors will also be positioned at the front door (Lee St.) area in which campus visitors use. The provision and use of these metal detectors are further evidentiary of our efforts to maintain a safe & secure learning environment for our students and staff.

On another note, regarding school safety, the LRSD technology department has reported multiple incidents of inappropriate use of technology. PHMS students have visited unsanctioned sites and posted inappropriate commentary. Misuse of school technology will not be permitted on the campus of PHMS. We will reinforce this with our students and request at home reinforcement.

Thank each of you for your support of a safe & secure campus.
